

2011 INTERNSHIPS

Diana: My involvement as an intern gave me the opportunity to appreciate and understand the natural behaviors of many wild animals. I especially enjoyed interacting with the birds of prey.

Ashley: My internship was great. I loved spending so much time helping wildlife; with each life you saved you know you are making a difference. I consider this internship a summer well spent.

Morgan: My internship was one of the greatest learning experiences of my life. It was a lot of hard work but in the end it was totally worth it. The animals and people I met will have an impact on me for the rest of my life.

Morgan & Ashley in the paddle boat at our wetlands participating in duck releases.
